Research and Academic Institutions		0
Honorary Members		0

MEMBERSHIP BENEFITS

GRSP ZA members are able to engage with experts in the field of road safety; government road safety corporations; civil society and international development organisations who are committed to road safety on South Africa's roads. GRSP ZA offers our members the following opportunities:

Power of Partnership

Together agencies can address more road safety issues by working together on the national and world forums. In unity with other members, holistic interventions can be developed to contribute to the reduction of death and injury caused by road traffic crashes. Members can also enjoy being part of a global coalition that shares and develops good practice to the mutual benefit of its staff and the communities in which they operate.

Leveraging funding and know-how

GRSP ZA members are able to add more value to existing resources by sharing their knowledge and expertise with other partners.

Developing sustainable institutions

Our members can engage with the community and develop programmes that encourage local ownership of problems and solutions.

The provision of a neutral forum

In this forum, government, business, and civil society can meet and discuss joint interests as peers.

Effective use of social responsibility budget

GRSP ZA assists in the alignment of social investment programmes with member programmes in our network. Members can enjoy the professional co-ordination of their programmes by the GRSP ZA, knowing that their social investment programmes are monitored, evaluated and are accurately addressing the needs of the recipient community through continuous assessment and research.

Please note that your above application will be considered as an indefinite membership contract with the Global Road Safety Partnership South Africa, until advised otherwise in a formal letter from your represented organization, stating your reason of terminating your membership with GRSP ZA. An invoice will be sent to you annually for membership fees (refer above table). Membership fees to be paid by no later on the 30th June each year.

Please note that your membership also entitles you to:

- ✓ Use the GRSP ZA logo on your organisation website
- ✓ Use the GRSP ZA logo in road safety related supporting documents after approval from GRSP ZA

NB: A Memorandum of Understanding (MoU) could also be drawn up with GRSP ZA, should there be other necessary services required from GRSP ZA and vice versa.
